Field RN, Care Manager, Hospice, Willits, Part TimeWillits, CA, United States

JOB DESCRIPTION

Our home health and hospice agencies are located throughout California, Hawaii, Oregon and Washington. They serve the entire community and offer personalized in-home care, and many have been recipients of Home Care Elite awards. So whether you're looking for the buzz of a large city, the tranquility of nearby mountain bike trails or something in between, we encourage you to explore our organization.

Job Summary:

Provides excellent patient care by assisting in collaboration, development, implementation, revision and reporting of the case management program. Acts as a liaison between the patient, family, nurse, physicians, multidisciplinary team and patient's healthcare benefactor to optimize outcomes. Serves as a consultant to the healthcare team on specific patient items.

Job Requirements:

Education and Work Experience:

Bachelor's Degree in Nursing (BSN): PreferredExperience in a care management role: Preferred

Licenses/Certifications:

Registered Nurse (RN) licensure in the state of practice: RequiredCase management certification: PreferredBasic Life Support (BLS

OR HS-BLS OR RQI BLS

) certification: Required

Essential Functions:

Leads the coordination of patient care with other disciplines within the care team, monitoring the appropriateness and timeliness of care. Ensures the interdisciplinary care plan is consistent with the patient's clinical course, continuing care needs and covered services by monitoring diagnostic testing, treatments and procedures, and other aspects of patient care as appropriate for acute care. Discusses with physicians, the appropriateness of resource utilization, consultations, treatment plan, estimated length of stay and discharge plan. Focuses on complex patients, frequent emergency department utilizers, chronic pain and substance abuse patients, and homeless patients. Collaborates with acute care case managers to ensure appropriateness on ongoing care. Coordinates the transfer of patients to tertiary centers, including the transfer of patient information required for continuity of ongoing treatment and services. Provides oversight and collects data required for regulatory/accreditation compliance.
