Solving workforce issues as a community will require stakeholders to:

1. **Coordinate and collaborate across organizations**, understanding that the work cannot be accomplished in siloes. Each partner organization brings unique expertise, networks, and resources to the table and should understand their organization’s role in advancing key pieces of the overall strategy.
2. **Follow the lead of employers**, the end-users of our region’s talent “supply chain.” Focus on the benefits to employers of collaborating to grow the pool of talent for all and the skills that are aligned to common industry pain points.
3. **Focus on skills**, the common language that brings together job seekers, employers, and educators for mutual benefit.
