Collaborate with the Working Hands Job & Career Fair

We invite community organizations, workforce programs, educational institutions, and local employers to collaborate with us at the Working Hands Job & Career Fair—an event dedicated to connecting job seekers with meaningful employment opportunities and career pathways.

This event is designed to bring together partners who share a commitment to strengthening our workforce and supporting individuals in building sustainable careers. By collaborating, organizations can showcase their services, share resources, and connect directly with individuals seeking employment, training, and professional development.

Collaboration opportunities may include:

- Hosting an informational table or booth
- Sharing workforce development resources or programs
- Participating as a hiring employer
- Supporting career readiness or job training initiatives
- Providing community support services

The Working Hands Job & Career Fair is more than an event—it's a collective effort to create opportunity, empower individuals, and build stronger communities through employment and partnership.

If your organization is interested in collaborating, we would love to connect and explore how we can work together to make a meaningful impact.
